

Billing & Payments

This section is for managing the workspace's subscription plans, credits, and payment methods. All payment-related information is strictly managed for security.

1. Subscription History

A menu to check and manage the current subscription status of the workspace.

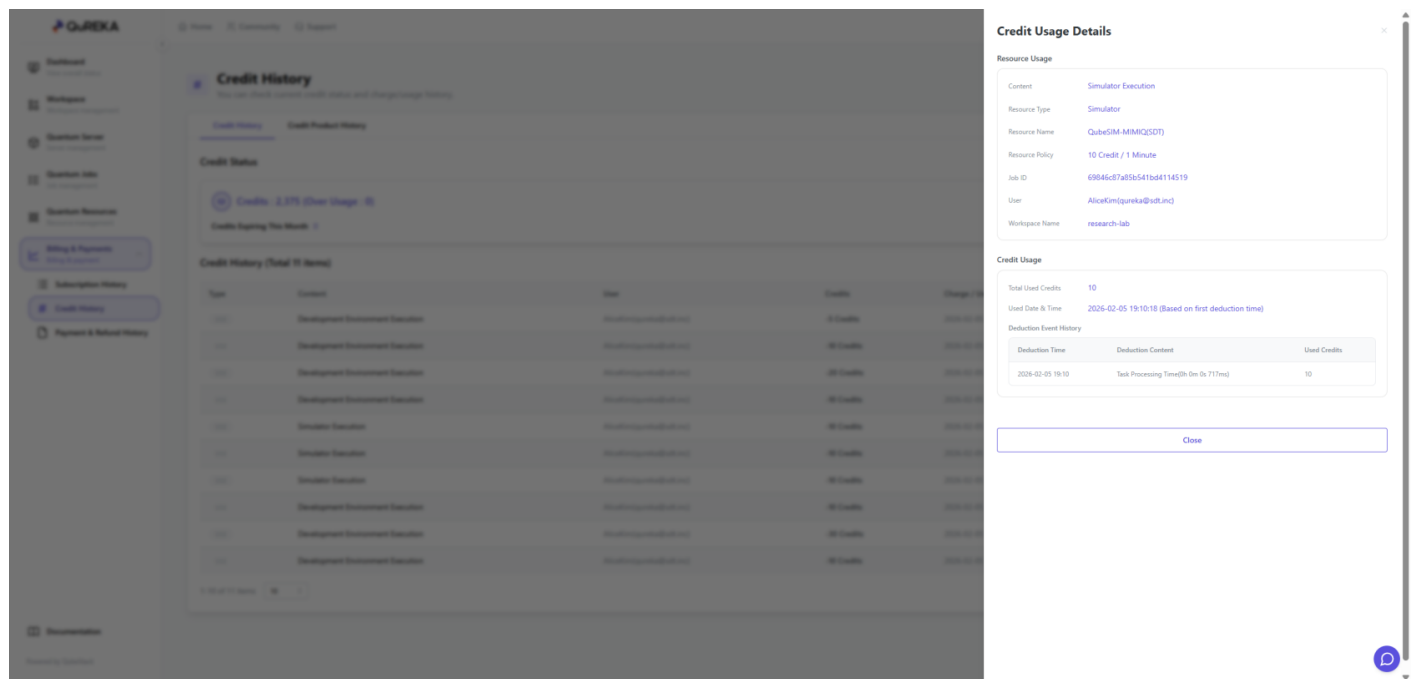

The screenshot displays the QuREKA Subscription History page. The left sidebar contains navigation links: Dashboard, Workspace, Quantum Server, Quantum Jobs, Quantum Resources, Billing & Payments (selected), Credit History, and Payment & Refund History. The main content area is titled 'Subscription History' and includes a subtitle 'View your current plan, payment methods, and past subscription and billing history.' The 'Current plan' section shows the 'Pro' plan with a monthly amount of ₩100,000, a period from 2026-02-05 to 2026-03-07, and a next payment date of 2026-03-08. The 'Registered payment method' section shows a credit card ending in 1234. The 'History' section shows a table of past subscriptions.

Plan	Status	Final amount	Period	Cancelled at
Pro	ACTIVE	₩100,000	2026-02-05 ~ 2026-03-07	-
Free	EXPIRED (PLAN CHANGED)	₩0	2026-02-05 ~ 2026-02-05	2026-02-05

- **Current Plan:** You can check the subscription plan currently in use and, if necessary, upgrade to a higher plan or cancel the current subscription.
- **Registered Payment Method:** You can register a payment method for recurring subscription payments.
 - **Security Notice:** Only the **Workspace Owner** can register or change payment methods; this area is not visible to other members.
- **History:** You can review the past subscription payment history of the workspace. Subscriptions are automatically renewed every **30 days** by default.

2. Credit History

Manage the status of credits used for quantum jobs and server usage within the workspace and track the consumption flow within the organization.

- **Credit Status:** Check the remaining credit balance in real-time. If credits are insufficient, you can purchase additional credits via the **[Purchase]** button.
- **Credit History:** You can view all records of credit recharges (purchases) and usage (deductions).
 - **Organization Consumption Monitoring:** It provides detailed logs of **how all members within the workspace have consumed credits** (e.g., quantum server usage, quantum job submissions), allowing for transparent cost management and tracking at the organizational level.

3. Payment & Refund History

Monitor all financial transaction records that occurred within the workspace.
